

User Manual of Hangman Game

1. Overview: Hangman is a game ,which is gussing words from the dictionary, is a paper and pencil guessing game for two or more players. The players must guess the words letter by letter or number which occurs in the word. The players can win the game when figuring out all the letters in the word successfully.For this game, there are only 6 chances until the hangman die.

2.How to play the Hangman game?

2.1 open the game

At first, open "cmd" window and then type in the source of your file named "HangmanGUI.java" .You should compile the source file firstly and then run the "HangmanGUI".Just as picture below.

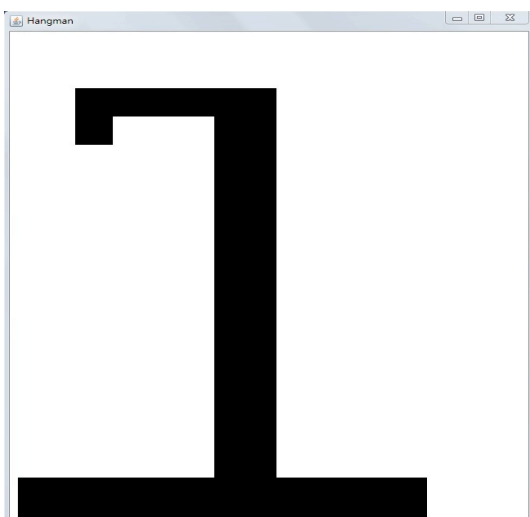

```
C:\Users\sony>cd C:\Users\sony\Desktop\JavaApplication1\src
C:\Users\sony\Desktop\JavaApplication1\src>javac HangmanGUI.java
C:\Users\sony\Desktop\JavaApplication1\src>java HangmanGUI
```

2.2 Type in your guess

At this step, you will see the code just as below.What you can do is type in a letter.Please remember just one letter. This game can not verify a long string.

```
Welcome to Hangman:
Word: _ _ _ _ _
Misses:
Enter Guess:
e
```

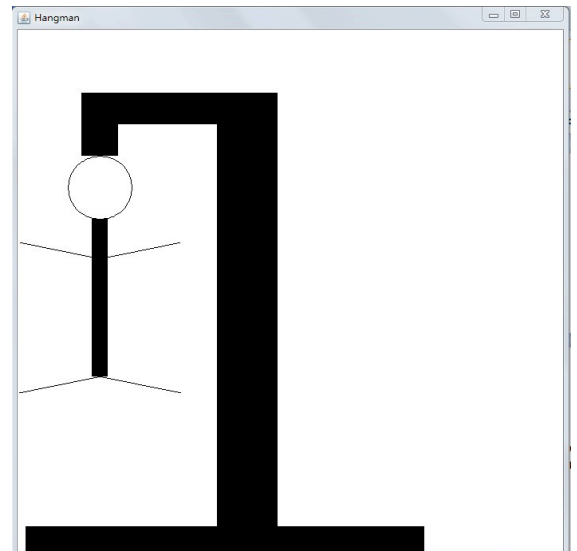

And you will get a picture at the same time just as below.

2.3 play game

Remember you just have six times and consider your guess seriously. With the miss you meet person in picture will complete gradually. When the person is completed, you will fail.

```
Word:_ _ _ k e _ w _ _ a n
Misses:  g h c
Enter Guess:
q
Word:_ _ _ k e _ w _ _ a n
Misses:  g h c q
Enter Guess:
z
Word:_ _ _ k e _ w _ _ a n
Misses:  g h c q z
Enter Guess:
m
Congratulations!What you guess is right!
Word:_ _ _ k e _ w _ m a n
Misses:  g h c q z
Enter Guess:
d
```

2.4 result

If you guess successfully, you will get

If you don not guess the word successfully, you will be asked: Would you like to play again?

```
What a pity! You have run out of guesses. The word was: spokeswomanSee you next
time.
Would you like to play again? Y/N
```

3. How to quit game?

You have two methods to quit it:

3.1 When you come across the question: "Would you like to play again?" You type

n/N

3.2 Close the frame directly to exit.

4. Tips:

1. Do not remove the "dictionary.txt". It is the source of words you guess.

2. Do not forget compile the file firstly and then run it.

3. For the copyright, this game is under protected. Do not think to copy and sell it.
